

AMENDMENT 0002 – BLOCK 14 CONTINUATION SHEET

AMENDMENT PURPOSE AND CLARIFICATION REGARDING FAR 52.212-5

The purpose of this amendment is to formally correct an administrative contradiction between the text of Amendment 0001 and the associated Questions and Answers (Q&A) Log.

Pursuant to the **Revolutionary FAR Overhaul (RFO)** framework enacted via **Executive Order 14275 (Restoring Common Sense to Federal Procurement)** and governing agency class deviations, **FAR 52.212-5** (Contract Terms and Conditions Required to Implement Statutes or Executive Orders—Commercial Products and Commercial Services) **has been completely deleted from the FAR system and is no longer used in any capacity.**

Accordingly, the solicitation is amended as follows:

- 1. Correction to Amendment 0001 Q&A Log (Item 1):** Item 1 of the Q&A log released with Amendment 0001 is hereby rescinded in its entirety. The guidance stating that FAR 52.212-5 was reinstated by reference or that a reinstated framework governs this procurement was issued in error.
- 2. Reaffirmation of FAR 52.212-5 Exclusion:** FAR 52.212-5 remains completely excluded from this procurement. Offerors must not utilize the checkbox-driven master framework of FAR 52.212-5 for their compliance matrices, certifications, representations, or subcontract flow-down planning.
- 3. Controlling Clause Framework:** The Government's requirement relies strictly on direct, standalone clause insertion as set forth in the RFO Part 12 modernized rules. Only the specific standalone clauses explicitly written and listed in Section I of this solicitation apply.

All other terms and conditions of the solicitation remain unchanged.

Offerors must acknowledge receipt of this Amendment 0002 within their final proposal packages.
