Section I - Contract Clauses

Addendum to FAR 52.212-1

1. The contractor shall provide all of the following information and submitted along with its offer. Any missing information can deem your offer unresponsive and will not be evaluated.

a) A price quote to complete the cable television installation as well as the subscription service for the base year and all option periods. This includes but is not limited to all costs related to transportation, labor, and materials. Contractor shall use "Attachment 4 - Pricing Workbook."

b) Installation approach: The offeror shall present relevant information articulating the offeror's proposed approach to meeting the PWS requirements. This section shall clearly demonstrate the offeror's understanding by providing a clear description of the proposed approach to performing the work. The offeror's description should include a clear description of all processes and procedures employed. This section shall not include any pricing data. The offeror's quote information will be evaluated to assess the risk that the offeror will timely meet contract requirements.

c) The offeror must confirm and briefly explain how they will meet the physical and logical delivery of twelve (12) continuous, HD, unencrypted IP streams directly to the Government-owned Haivision System. The narrative must address:

1) Signal Acquisition & Decryption:

- Identify the commercial signal source provider (e.g., DirecTV, DISH Network, or other commercial satellite/cable feeds).

- a) Price
- b) Technical Acceptability- Proposals will first be reviewed for completeness and conformance to the instructions to offerors. Determination will be made based on the contractor's ability to meet the requirements listed in the Performance Work Statement. This determination will be made solely on the information provided in the offeror's proposal
- c) Past Performance - Evaluated on a "Pass/Fail" basis. Determination will be made based on the information retrieved from Contractor Performance Assessment Reporting System (CPARS). If there is any performance rating below "satisfactory" the evaluation will be considered as fail and the offeror will not be considered for award. In the case of an offeror without a record of past performance or for whom information on past performance is not available, the offeror may not be evaluated favorably or unfavorably on past performance.
