

DoDIN Approved Products List

The Department of Defense Information Network (DoDIN) Approved Products List (APL) is the single consolidated list of products that affect communication and collaboration across the DoDIN. The DoDIN APL is an acquisition decision support tool for DoD organizations interested in procuring equipment to add to the DISN to support their mission. The DoDIN APL is managed by the Approved Products Certification Office (APCO).

DoDIN Approved Products List

DODIN APL SUNSET NOTICE:

In accordance with the DoD CIO's DoDIN APL Guidance Memo, the Department of Defense is initiating a phased sunset of the DoDIN APL and its associated certification processes. The DoDIN APL program will be officially sunset on 30 September 2025, with all currently scheduled APL testing concluding by 31 December 2025. Following the completion of testing activities, the Approved Products Certification Office (APCO) will continue to provide support to the APL distributed test labs, the Joint Interoperability Test Command (JITC), and the DISA Risk Management Executive (RME) to ensure all final reporting and certification deliverables are completed. To maintain transparency and continuity, DISA remains committed to maintaining the repository of approved DoDIN APL products through Fiscal Year (FY) 2026.

Moving forward, cybersecurity requirements will transition to the DISA RME Vendor Security Technical Implementation Guides (STIG) (<http://www.cyber.mil/stigs/vendor-process>) program, while interoperability requirements will be identified by the Unified Capabilities Requirements (UCR)-CORE document and enforced through contractual provisions.

DoDIN APL Sunset FAQ (/docs/DODIN_APL_SUNSET_FAQ.pdf)

The Defense Information Systems Agency maintains the DOD Information Network (DODIN) Approved Products List (APL) process, as outlined in DOD Instruction 8100.04 (</docs/810004p.pdf>) on behalf of the Department of Defense. This process provides a single, consolidated list of products that have met cybersecurity and interoperation certification requirements.
