- (d) This provision does not require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a). The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.
- (d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that
- (1) It ☐ is ☐ is not a foreign person; and

Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

252.215-7008 Only One Offer.

(Dec 2022)

ONLY ONE OFFER (DEC 2022)

(a) Cost or pricing data requirements. After initial submission of offers, if the Contracting Officer notifies the Offeror that only one offer was received, the Offeror agrees to-

(1) Submit any additional cost or pricing data that is required in order to determine whether the price is fair and reasonable (10 U.S.C. 3705) or to comply with the statutory requirement for certified cost or pricing data (10 U.S.C. 3702 and FAR 15.403-3); and

(2) Except as provided in paragraph (b) of this provision, if the acquisition exceeds the certified cost or pricing data threshold and an exception to the requirement for certified cost or pricing data at FAR 15.403-1(b)(2) through (5) does not apply, certify all cost or pricing data in accordance with paragraph (c) of DFARS provision 252.215-7010, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, of this solicitation.

(b) Canadian Commercial Corporation. If the Offeror is the Canadian Commercial Corporation, certified cost or pricing data are not required. Evaluation Factors for Award

RFO Provision 52.212-2, Evaluation -- Commercial Items, applies to this acquisition.

As prescribed in RFO 12.205(a), the following addendum is provided for this solicitation and hereby amends any language therein:

Basis for Contract Award. The Government intends to award a contract resulting from this solicitation to a single source that meets the instructions outlined in 52.212-1, and the requirements outlined in this provision if price can be determined both fair and reasonable by the Contracting Officer, RFO 12.204(a). The Government is not limited to the quote that only meets the minimum described in the below factor(s) and provides the lowest price. However, if no quote received in response to the solicitation exceeds the minimum criteria outlined in this provision, as determined by the Government; then the Government intends to award a contract to the lowest priced offer that meets the instructions outlined in 52.212-1, and the minimum requirements outlined in this provision whose price can be determined both fair and reasonable and realistic by the Contracting Officer. The Government intends to make an award without conducting exchanges with vendors after the close of the solicitation. Therefore, vendors should provide their best available pricing and technical to the Government in their initial. However, the Government reserves the right to enter into exchanges with all, some, or none of the offers at any time during the evaluation period if deemed in the best interests of the Government to do so.

The government will make a best value determination by weighing technical capability and price. A contract may be awarded to an offeror whose quote, while not the lowest-priced, provides the best combination of these factors to meet the government's needs. Tradeoffs between price and non-price factors may be made to ensure the best overall outcome but the government is not required to do so.

Evaluation Factors. The following factors shall be used by the Government to evaluate offerors for a best value determination:

Price. At minimum, the vendor must provide pricing in accordance with the instructions outlined in RFO 52.212-1. The vendor that provides the lowest price that can be determined both fair and reasonable and realistic by the Contracting Officer, RFO 12.204(a) may be given additional consideration for awardee selection. However, the Government is under no obligation to do so. The Government intends to only evaluate prices submitted under Combined Synopsis/Solicitation section Supplies. During the evaluation process the Contracting Officer will determine a "Total Evaluated Price" (TEP) for each offeror who is eligible. The TEP is determined by totaling the amount of line items identified in Combined Synopsis/Solicitation section Supplies or Services and Prices/Cost. For the purposes of this evaluation, a price that is deemed too high while conducting the evaluation in accordance with RFO 12.204(a) would not be considered fair and reasonable. For the purposes of this evaluation, a price that reflects a lack of understanding of the contract requirement or displays an undue risk inherent to the vendors approach would not be considered realistic.

Technical Capability. At minimum, the vendor must provide documentation that outlines the technical specifications of the products to be provided. The specifications must articulate how the products priced by the vendor meets the technical requirements outlined in Attachment 1 - Salient Characteristics. The vendor is to provide a total projected timeline to complete/deliver all items.

52.212-2	Evaluation-Commercial Products and Commercial Services. (Deviation 2026-O0038)	(Feb 2026)
----------	--	------------

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

[Insert evaluation factors in the relative order of importance. For requests for proposals, state: Evaluation factors other than price when combined are [significantly more important than price/approximately equal to price/significantly less important] than price. For invitations for bids, list only price and price-related factors.]

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
