(DEVIATION MAY 2026)**

As prescribed in 22.2203, insert the clause:

(a) *Definitions*. As used in this clause—

Program participation means membership or participation in, or access or admission to: training, mentoring, or leadership development programs; educational opportunities; clubs; associations; or similar opportunities that are sponsored or established by the contractor or subcontractor.

Racially discriminatory diversity, equity, and inclusion (DEI) activities means disparate treatment based on race or ethnicity in the recruitment, employment (e.g., hiring, promotions), contracting (e.g., vendor agreements), program participation, or allocation or deployment of an entity's resources.

(b) In connection with the performance of work under this contract, the Contractor agrees as follows:

- (1) The Contractor will not engage in any racially discriminatory DEI activities;
- (2) The Contractor will furnish all information and reports, including providing access to books, records,

and accounts, as required by the Contracting Officer, for purposes of ascertaining compliance with this clause;

(3) In the event of the Contractor's or a subcontractor's noncompliance with this clause, this contract may be canceled, terminated, or suspended in whole or in part, and the Contractor or subcontractor may be declared ineligible for further Government contracts;

(4) The Contractor will report any subcontractor's known or reasonably knowable conduct that may violate this clause to the Contracting Officer and take any appropriate remedial actions directed by the Contracting Officer; and

(5) The Contractor will inform the Contracting Officer if a subcontractor sues the Contractor and the suit puts at issue, in any way, the validity of this clause.

(6) The Contractor recognizes that compliance with the requirements of this clause are material to the Government's payment decisions for purposes of 31 U.S.C. 3729(b)(4).

(c) The Contractor must include the substance of this clause, including this paragraph (c), in subcontracts at any tier, including those for commercial products and commercial services, except those where the place of delivery or performance is outside the United States.

(End of clause)

1452.201-70 AUTHORITIES AND DELEGATIONS (SEP 2011)

(a) The Contracting Officer is the only individual authorized to enter into or terminate this contract, modify any term or condition of this contract, waive any requirement of this contract, or accept nonconforming work.

(b) The Contracting Officer will designate a Contracting Officer's Representative (COR) at time of award. The COR will be responsible for technical monitoring of the contractor's performance and deliveries. The COR will be appointed in writing, and a copy of the appointment will be furnished to the Contractor. Changes to this delegation will be made by written changes to the existing appointment or by issuance of a new appointment.

(c) The COR is not authorized to perform, formally or informally, any of the following actions:

(1) Promise, award, agree to award, or execute any contract, contract modification, or notice of intent that changes or may change this contract;

(2) Waive or agree to modification of the delivery schedule;

(3) Make any final decision on any contract matter subject to the Disputes Clause;

(4) Terminate, for any reason, the Contractor's right to proceed;

(5) Obligate in any way, the payment of money by the Government.

(d) The Contractor shall comply with the written or oral direction of the Contracting Officer or authorized representative(s) acting within the scope and authority of the appointment memorandum. The Contractor need not proceed with direction that it considers to have been issued without proper authority. The Contractor shall notify the Contracting Officer in writing, with as much detail as possible, when the COR has taken an action or has issued direction (written or oral) that the Contractor considers to exceed the COR's appointment, within 3 days of the occurrence. Unless otherwise provided in this contract, the Contractor assumes all costs, risks, liabilities, and consequences of performing any work it is directed to perform that falls within any of the categories defined in paragraph (c) prior to receipt of the Contracting Officer's response issued under paragraph (e) of this clause.

(e) The Contracting Officer shall respond in writing within 30 days to any notice made under paragraph (d) of this clause. A failure of the parties to agree upon the nature of a direction, or upon the contract action to be taken with respect thereto, shall be subject to the provisions of the Disputes clause of this contract.

(f) The Contractor shall provide copies of all correspondence to the Contracting Officer and the COR.

(g) Any action(s) taken by the Contractor, in response to any direction given by any person acting on behalf of the Government or any Government official other than the Contracting Officer or the COR acting within his or her appointment, shall be at the Contractor's risk.

Section M – Evaluation Factors for Award

BASIS FOR CONTRACT AWARD

M.1.0 BASIS OF AWARD.

M.1.1 Award without Discussion

The Government intends to evaluate proposals and award a contract without discussions with offerors. Therefore, each initial offer should contain the offeror's best terms from a price standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. (See Provisions FAR 52.215-1, Instructions to Offerors – Competitive Acquisitions) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by

either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Offerors are cautioned to submit sufficient information and, in the format, specified in Section L. Communication conducted to resolve minor or clerical errors would not constitute discussions and the contracting officer reserves the right to award a contract without the opportunity for proposal revision.

M.1.2 Evaluation Approach

This award will be made based off of the tradeoff evaluation method. The Tradeoff Process is a best value source selection strategy that permits a tradeoff between price, past performance, and technical capabilities.

This is a competitive best value source selection in which competing offeror's recent relevant experience and ability to deliver, when combined, are more important to cost/price. By submission of its offer, the offeror accedes to all solicitation requirements, including terms and conditions, representations and certifications, and technical requirements, in addition to those identified as evaluation factors or subfactors.

M.1.3 Factors to be Evaluated

The following evaluation factors will be used to evaluate each proposal:

FACTOR 1 – RECENT RELEVANT EXPERIENCE
FACTOR 2 – ABILITY TO DELIVER/OFFEROR CAPACITY
FACTOR 3 – PRICE

Evaluation of the offeror's proposal shall address each factor as it applies to the statement of work, specifications and drawings. A detailed explanation of the criteria for the evaluation is set forth (Evaluation Approach) below.

M.2.0 Evaluation Factors

FACTOR 1 – RECENT RELEVANT EXPERIENCE

Offerors shall be evaluated to determine whether they have performed similar contracts, in terms of scope and price, to the work required within the solicitation. Offerors shall provide the minimum requested project information on at least three (3) relevant projects completed within the last (5) years for the construction of similar projects as stated on statement of work (MAXIMUM 5 PAGES TOTAL). For a project to be considered, the offeror shall have been the Prime Contractor on it. One of the projects does have to have been done with a Federal Agency to be considered. Responses exceeding the 5-page maximum shall not be considered.

A project is considered 'relevant' if it is similar in terms of scope and price to the work required within the solicitation. To be considered similar in scope, projects shall demonstrate work experience in construction of similar project as stated on the statement of work and the project shall have a contract value of the magnitude listed on the SF 1442.

FACTOR 1 RECENT AND RELEVANT EXPERIENCE
--

Rating	Description
High Confidence	The Government has high confidence that the offeror understands the requirement, has experience performing relevant work in recent history and will be successful in performing this contract with little to no Government interaction based on the information received in this proposal for factor 1.
Some Confidence	The Government has some confidence that the offeror understands the requirement, has experience performing relevant work in recent history and will be successful in performing this contract with little to no Government interaction based on the information received in this proposal for factor 1.
Low Confidence	The Government has low confidence that the offeror understands the requirement, has experience performing relevant work in recent history and will be successful in performing this contract with little to no Government interaction based on the information received in this proposal for factor 1.

FACTOR 2 – TECHNICAL ABILITY TO DELIVER/OFFEROR CAPACITY

The offeror shall provide documentation which demonstrates their capacity to construct the project as shown in the solicitation, drawings, specifications, and supporting documents.

- a) Documentation shall include but will not necessarily be limited to: General Contractor's list of current on-going projects and projected project commitments and obligations for remaining calendar year 2026.
- b) The offeror shall also confirm availability for project start on or about September 21, 2026. The response on this item is limited to 2 pages maximum. Proposal responses exceeding the 2-page maximum limit shall not be considered.

FACTOR 2 TECHNICAL ABILITY TO DELIVER/OFFEROR CAPACITY	
Rating	Description
High Confidence	The Government has high confidence that the offeror has demonstrated they have sufficient ability to start this project on time and complete this project by the period of performance end date based on the information provided in factor 2.
Some Confidence	The Government has some confidence that the offeror has demonstrated they have sufficient ability to start this project on time and complete this project by the period of performance end date based on the information provided in factor 2.
Low Confidence	The Government has low confidence that the offeror has demonstrated they have sufficient ability to start this project on time and complete this project by the period of performance end date based on the information provided in factor 2.

FACTOR 3 – PRICE

Price – Offeror's prices for each item within the price schedule shall represent the best price in response to the solicitation. Prices will be evaluated using price analysis IAW FAR 15.404-1(a)(2) and 15.404-1(b). Prices shall be evaluated to determine fair and reasonableness.

The Offeror shall remit a completed price schedule attached in Section J of the solicitation. The price shall include all necessary supervision, management, labor, transportation, equipment, materials, any other direct incidental costs, overhead and profit, unless the cost is expressly identified as a separately priced contract line item. Any offer that fails to cite a price for each item or fails to make an entry that indicates service will not be provided for an Item will be rejected as non-conforming to this solicitation and not be considered for award.

Statement of Work

Drain Line Replacement (Section)

1. Introduction

Purpose: The purpose of this project is to replace approximately 305 linear feet of 30" PVC pipe. Additionally, a two sections of existing pipe are to be video scoped, one section is approximately 200 linear feet while the other is approximately 225 linear feet.

Background: The Alchesay National Fish Hatchery (NFH) is a cold-water hatchery located along the North Fork White River. The section of drainage line being replaced under this contract is the main drainage line for distributing effluent to the discharge point in the river. This section of piping is believed to have been replaced sometime around 1990-1991 and is due for replacement. The piping runs between three concrete junction boxes as shown on Drawing C1 (Attachment A.)

Additionally, two sections of pipe upstream of the piping being replaced shall be scoped to determine the pipe material and current condition.

Location: Alchesay NFH is located approximately eight (8) miles north of Whiteriver, AZ in Navajo County. Contractors are encouraged to visit the site before submitting a proposal. Refer to the Solicitation for information regarding the date and time of the site visit.

Hatchery Address:

Alchesay National Fish Hatchery
8602 N. Alchesay Fish Hatchery Rd.
Whiteriver, AZ 85941

2. Performance Time

All work shall be completed no later than 75 calendar days after Notice of Award.

Statement of Work

Drain Line Replacement (Section)

5. Scope of Work

5.1 General Requirements

The Contractor shall provide all labor, materials, and equipment to perform the work as outlined in this contract. This includes:

- Replace approximately 315 LF of 30" PVC Pipe
- Videoscope 200 LF of pipe to determine pipe material and condition.
- Videoscope 225 LF of pipe to determine pipe material and condition.

The Hatchery is operational and will remain so through the duration of this project. Coordination will be required with Hatchery staff to isolate sections of piping as needed to complete the work. Based on the design of the system and options for water diversion isolation of sections will be able to occur. The Contractor shall provide the Hatchery Manager with at least 3 working days notice of isolation needs.

One video recording shall be performed from Junction Box No. 1 extending upstream towards the Holding House. The distance is approximately 200 linear feet. The purpose of this recording is to confirm pipe material and condition. A previous survey conducted in 2025 indicated the pipe material to be Asbestos-Cement Pipe while older drawings indicate Steel. Contractor shall assume pipe to be ACP until it can be confirmed.

The second video recording shall be performed from Junction Box No. 1 extending downstream to Junction Box No. 2. The distance is approximately 225 linear feet. The purpose of this recording is to confirm pipe material and condition.

6. Submittals

6.1 Schedule of Values:

Prior to the start of on-site work, the Contractor shall submit a Schedule of Values for review and acceptance. A cost loaded Construction Schedule is acceptable in lieu of a separate Schedule of Values.

Values should accurately reflect the cost of the work being performed. No front loading will be accepted. Indirect Costs shall be distributed among all work line items and not billed as a separate line item. Submittals are to be included in the work line item they cover and will not be paid as separate line items.

6.2 Project Schedule:

Prior to the start of work, the Contractor shall prepare and submit a Baseline Construction Schedule in the form of a Bar Chart Schedule. The schedule shall represent the Contractor's plan on how the work will be accomplished and accurately reflects the work that has been completed and sequenced. The approval of this schedule is a condition precedent to:

1. The Contractor starting demolition or construction work of the contract.
2. Processing Contractor's invoice(s) for construction activities.
3. Review of any schedule updates.

Statement of Work Drain Line Replacement (Section)

The Baseline Construction Schedule at a minimum must show work activities, submittals, Government review periods, material/equipment delivery, utility outages, on-site construction, and closeout activities.

Update the Construction Schedule at a monthly interval or when the schedule has been revised. Keep the schedule current, reflecting actual activity progress and plan for completing the remaining work.

6.3 As-built Drawings:

Maintain an accurate, current redline drawing of the project progress. Any deviations from the contract documents shall be clearly marked showing all detail necessary. Upon project completion, a final redline drawing shall be submitted for Government review and approval. Ensure any writing is legible and include all changes to details or shop drawings to reflect the completed work.

6.4 Video Scope Recording

Provide a video system capable of producing a sharply focused, well-lit and color balanced pictures in accordance with the following requirements:

1. Provide a pipe inspection camera system using a color pan and tilt camera with radial viewing, that pans a minimum of 275 degrees and rotates 360 degrees or a side wall scanning (panoramic) camera capable of 360 degree image capture. Illumination sensitivity of 3 Lux or less and a minimum of 460 lines of resolution is required.
2. Utilize video cameras specifically designed and constructed for CCTV inspection.
3. Provide a camera that is operative in 100 percent humidity conditions.
4. Provide a camera with an accurate footage counter that displays on the monitor the exact distance of the camera to the nearest 1/10 of a foot.
5. Provide a camera with a height adjustment so that the camera lens is typically centered in the pipe or higher depending on water levels in the pipe.
6. Provide equipment that will produce digital color images and allow the CCTV technician to remotely balance the iris and color to produce a clear and true video of the pipeline.
7. Provide lighting for the camera that is suitable to provide a clear color picture of the entire periphery of the pipe.
8. Provide a reflector in front of the camera as necessary to enhance the lighting on dark or large diameter pipes.
9. Provide an accompanying computer and recording device capable of projecting and recording the facility location, project name, Contractor's name, date, line size, material type, line identification, manhole or structure ID numbers and ongoing footage counter on to the video screen.

Provide a color video showing the completed work and document the inspection on a digital recorder. Capture inspection video in either MPEG-4 or Windows Media Video (WMV) format with a minimum resolution of 352 x 240 pixels and an interlaced frame rate at a minimum of 24 frames per second. Save

Statement of Work Drain Line Replacement (Section)

video on CD or DVD. However, the CCTV inspection video of a segment must be wholly contained on a single CD or DVD. The video recording must meet the following requirements:

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Note: Executive Order 13658 generally applies to contracts subject to the Davis-Bacon Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. Executive Order 13658 does not apply to contracts subject only to the Davis-Bacon Related Acts regardless of when they were awarded. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least \$13.65 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract from May 11, 2026, through December 31, 2026. The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than **◆SU◆**, **◆UAVG◆**, **◆SA◆**, or **◆SC◆** denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated

rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE:

UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The SU identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

SU wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The SA identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the SA identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination

- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.
