Additional Information/Notes

Item	Supplies/Service	Quantity	Unit	Unit Price	Amount
0001	One (1) custom-built, marine-grade, 3-phase step-down transformer, 27 kVA or higher, in accordance with Section C and Attachment 1, Salient Characteristics. Pricing Arrangement: Firm Fixed Price	1	Each		

Section C - Description/Specifications/Statement of Work

1.0 Background/Introduction: Naval acoustics research at the Naval Postgraduate School (NPS) has a Naval Conex box that requires a transformer to be used for physics research onboard civilian research vessels. Navy ships offer 115 VAC (volts AC) 3 PH (phase) DELTA, but this is generally not available on civilian research ships (UNOLS- University-National Oceanographic Laboratory System). All vessels supply 480 (or 440) VAC 3PH DELTA. We require a transformer to be placed between one 480 VAC ship supply and three 115 VAC Conex input lines.

2.0 Minimal Technical Requirements/Salient Characteristics:

<u>Item No.</u>	<u>Qty</u>	<u>Unit</u>	<u>Manufacturer</u> (If known)	<u>Part Number</u> (If known)	<u>Description</u>
	1	1			Transformer: 3-Phase Step-Down XFMR- 27 kVA (3x115V 3 PH. Sec) (see below for specifications)

Electrical Specifications:

- Step down isolation transformer, EMI shielded, embalmed copper-wound transformer.
- Input: 480 VAC 3P 50A DELTA. Output: 115 VAC 3PH 30A, DELTA. 27 KVA.
- Reasonable input VAC adjustment in case of a different supply (e.g., 440,460, etc. VAC).
- Meet MIL-T-15108C specifications (military specification for dry-type, single-phase, 60-hertz step-down power transformers).
- ~3% Impedance.
- Optional: Operate not in direct sunlight but only in the shade (including label).
- Conex box has 3 inputs, two labeled 115 VAC 3PH 30A DELTA and one labeled 115 VAC 1PH 30A DELTA.
- Transformer Outputs: 3 MS bulkhead connectors connected to a distribution panel Fused at 30A each as our two Conex inputs are 3PH 30A DELTA, one input is 1PH 30A DELTA (defined as 2 hot and 1 ground). All 8 AWG.
- Input: 480 VAC 3P 50A OPEN-DELTA (MS17344, 8AWG, 1,000V)
 - o Use 6 AWG SIL-A-BLEND 200C/1000V or better to match CONEX wiring. 3 phase colors are black, white, red, respectively.
 - o Input cable uses Receptacle without Coupling Ring CL90557 C 32 4 12 S
 - o Transformer uses 'Wall mount Plug' (as appropriate) with Coupling Ring MS90558 C 32 4 12 P
 - o Primary fuse, such as slow-blow or anti-surge fuse, for 50A
- Output: Three 115 VAC 30A, OPEN-DELTA
 - o Use 8 AWG SIL-A-BLEND 200C/1000V or better to match CONEX wiring. 3 phase colors are black, white, red, respectively.
 - o Each output is fused for 30A (same as inside Conex Box).
 - o Two outputs at 3PH 30A DELTA.

- o One output at 1PH 30A DELTA (defined as 2 hot and 1 ground).
 - o Bulkhead connector: MS17346 R 28 C 3 P X. For 2 outputs, use standard rotations (remove X), for 1PH output, replace X with appropriate letter.
- Grounding: the Primary and secondary transformer are OPEN-DELTA grounded.
 - o The 4th pin of the input cable / connector provides a direct ground connection to the hull. This pin should be bonded to the transformer grounding bus and chassis, as all ship equipment must be on the same potential.
 - o The 3rd pin of the 1PH output is bonded to the transformer grounding bus and thus provides a ground to the Conex Box.
 - o For safety, an additional 2-ft braid connecting the transformer chassis to the ship ground will be supplied as backup to the 4th pin connection.
 - o Ground conductor color is green.

Thermal Specifications: The transformer is rated as: 50C ambient temperature, 115C temperature rise, 200C insulation rating.

Mechanical Specifications:

- Marine grade, NEMA 4 enclosure (as the unit will be mounted on a ship deck and is exposed to elements).
- Casters, lifting eyes and reinforced underside for transporting and securing via crane or forklift.
- Removable locking casters for moving the item across deck or to the ship's inside through double (bulkhead) doors.
- Require to move/secure/mount the transformer on a ship to the deck. UNOLS deck pattern is a square pattern, 2'x2' center to center, for 1"-8 bolts.

The contractor shall provide the required transformer in accordance with this Section C and Attachment 1, Salient Characteristics.

The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(a) *Definitions.* As used in this clause-

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern-

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support-table-size-standards>.

(d) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition-

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. Section M - Evaluation Factors for Award

M.1 Basis for Award

The Government intends to award a single Firm-Fixed-Price contract to the responsible Quoter whose quotation conforms to the solicitation requirements and is determined to be the **Lowest Price Technically Acceptable (LPTA)**. The evaluation will be conducted using the following two factors: **(1) Technical Acceptability** and **(2) Price**.

M.2 Factor 1 - Technical Acceptability

Technical Acceptability will be evaluated on an **Acceptable/Unacceptable** basis. To be rated **Acceptable**, the quotation must:

a. Conform to Solicitation Requirements.

Clearly demonstrate that the product offered meets all mandatory requirements of **Section C** and **Attachment 1, Salient Characteristics**, including the required electrical, grounding/bonding, thermal, mechanical, and environmental requirements.

b. Include Required Technical Documentation.

Provide sufficient technical documentation for the Government to determine compliance with the solicitation requirements. At a minimum, the Quoter shall provide product literature, specifications, drawings, cut sheets, or other technical information demonstrating that the quoted transformer meets the mandatory requirements, including compliance with **MIL-T-15108C**.

A quotation rated **Unacceptable** under this factor will be ineligible for award.

M.3 Technical Ratings

Rating	Description
Acceptable	The quotation meets all minimum technical requirements of the solicitation.
Unacceptable	The quotation fails to meet one or more minimum technical requirements of the solicitation.

M.4 Factor 2 - Price

The Government will evaluate the total quoted price of all quotations rated **Acceptable** under the Technical Acceptability factor. Price will be evaluated for completeness and reasonableness.

M.5 Award Determination

Award will be made to the responsible Quoter submitting the **lowest total evaluated price** among the technically acceptable quotations. Prior to award, the Contracting Officer will make a responsibility determination in accordance with **FAR 9.104**.

M.6 Responsibility Determination

Award will only be made to a Quoter that satisfies the general responsibility standards of **FAR 9.104-1**. The Contracting Officer may make a responsibility determination without requesting additional information from a Quoter or may require the Quoter to provide information substantiating that it satisfies the general responsibility standards of FAR 9.104-1. Any information requested will be specific to the Quoter under consideration. The Contracting Officer may consider a Quoter's failure to promptly provide requested information as an indication that the Quoter is non-responsible.

While the Contracting Officer may request any information relevant to the standards at FAR 9.104-1, examples of information that may be required include:

- Information demonstrating that the Quoter has adequate financial resources to perform the contract, such as bank references or current financial information.
- Information demonstrating that the Quoter's price is not so low as to call into question the Quoter's ability to successfully perform the contract.
- Recent past performance information for similar supply requirements, including customer points of contact, if available.
- Information demonstrating that the Quoter can comply with the required delivery schedule.
- Information demonstrating that the Quoter has, or can obtain, the necessary organization, experience, accounting and operational controls, technical skills, and production capability to successfully perform.
- Information regarding quality assurance procedures and equipment or facilities proposed for use in performance.
- Information demonstrating that any proposed subcontractor satisfies applicable responsibility standards, if relevant.
- Completion of all required certifications and representations included in the solicitation.

Nothing in this provision limits the Contracting Officer's discretion to rely on information available from other sources, including past performance systems, responsibility records, or other information obtained in accordance with **FAR Part 9**, in determining whether the Quoter satisfies the general responsibility standards.

M.7 Supplier Performance Risk System (SPRS)

The Contracting Officer may use the **Supplier Performance Risk System (SPRS)**, together with any other relevant information, in evaluating the Quoter's responsibility and performance risk. SPRS retrieves item, price, quality, delivery, and contractor information from Government reporting systems to support risk assessments.

EVALUATION-COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (FEB 2026) (DEVIATION)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

[Insert evaluation factors in the relative order of importance. For requests for proposals, state: Evaluation factors other than price when combined are [significantly more important than price/approximately equal to price/significantly less important] than price. For invitations for bids, list only price and price-related factors.]

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
